Semana Mundial La Lactancia Materna:

Lactancia materna Camila Lucchini, Francisca Márquez, 2015 Lactancia materna es un texto clave y de vanguardia que aborda de manera integral el fenómeno del amamantamiento y lo posiciona desde el paradigma del autocuidado. Da cuenta de las estrategias de promoción de la lactancia materna en el ámbito de la gestión pública, las iniciativas internacionales para su instalación exitosa y la descripción de consultas de apoyo en las Clínicas de Lactancia. Asimismo presenta aspectos fisiológicos que ayudan a comprender este proceso, los principales problemas de origen materno y del niño que pueden poner en riesgo esta práctica, así como las maneras de ayudar a resolverlos. Por último, el texto aborda la introducción de la alimentación complementaria y el apoyo para el retorno laboral materno, junto a valiosos testimonios de madres.

Nutrición y vida activa: del conocimiento a la acción, 2006 Nutrición y vida activa del conocimiento a la acción es una antología escrita por destacados expertos en salud pública de la Organización Panamericana de la Salud y la comunidad internacional de desarrollo. Las selecciones del libro se enfocan en cómo la investigación en nutrición y la promoción de modos de vida activos pueden hacer aportes vitales para la planificación y la formulación de políticas públicas, así como para el diseño y la ejecución, el seguimiento y la evaluación de programas.

Dar el pecho Gonzalo Melgar de Corral, Mercedes de Dios Aguado, M.^a Concepción Villar de la Fuente, María Fátima Gallego Moreno, 2021-07-07 La lactancia materna en la actualidad se enfrenta a importantes dificultades sociales, laborales y familiares que hacen que las cifras de prevalencia materna estén muy por debajo de las recomendaciones de expertos y autoridades. Por este motivo, la promoción de la LM ha empezado a ser una labor que se desarrolla en el ámbito de la salud. En España actualmente se ensayan diferentes formas y estilos de realizar esta labor. El estudio realizado mediante metodología cualitativa mediante grupos de discusión con madres participantes en diferentes grupos de apoyo a la lactancia materna de la provincia de Toledo analiza desde sus puntos de vista el funcionamiento de estos grupos y las dificultades que deben superar durante la lactancia. Así, el estudio ofrece claves que permitirán al profesional de la salud orientar su labor de promoción de la

Leche y lecheras en el siglo XX Fernández Prieto, Lourenzo, Lanero Táboas, Daniel, 2019 Este libro analiza la evolución de la especialización ganadera y del sector lácteo en diferentes territorios de la Europa atlántica desde finales del siglo XIX hasta un presente marcado por los retos de la sostenibilidad ambiental socioeconómica y cultural de la producción y del consumo de leche. Los lectores podrán encontrar en las aproximaciones clásicas al tema la innovación tecnológica, la industria láctea, el marco institucional o el mercado, así como líneas de investigación más recientes en nuestra historiografía prácticas higiénico-sanitarias, nutrición y salud pública, pero con un más que prometedor horizonte. Sin embargo, el principal objetivo de los editores de esta monografía es hacer una reflexión sobre los posibles pasados alternativos para la especialización lechera que la Revolución Verde cercenó. Reconsiderar estas viejas historias cegadas e introducir en el análisis del sector los factores políticos en sentido amplio, sociales y culturales, es nuestra propuesta colectiva a la discusión de soluciones en presente para la insostenibilidad ambiental, pero también cultural del modelo actual.

Enfermería Ana Beatriz Antuna Canales, et al., 2021-11-05 La presente obra muestra el interés de la Facultad de Enfermería y Obstetricia de la Universidad Juárez del Estado de Durango por socializar resultados de investigación de diversas temáticas estudiadas por profesionales de enfermería en diferentes estados de la república mexicana y muestra incursiones en investigación de los cuidados de enfermería como la base para el desarrollo de la profesión. Esperamos que esta compilación contribuya en la formación de las nuevas generaciones y aporte conocimiento que beneficie a los usuarios de los servicios.
